● Function parameter

Product type	Three-steps switch recorder	4GB	Can save 48 hours
Recorder method	Power on recording, power off saving	8GB	Can save 96 hours
Battery	Environmentally friendly polymer lithium battery	16GB	Can save 192 hours
Recording bit rate	192KBPS	32GB	Can save 384 hours
Recording format	WAV	64GB	Can save 768 hours
Play format	MP3/WMA/WAV	Sampling Rate	48KHz

● Precautions

1. When charging or connecting to a computer, turn the switch to **off** first. When unplugging, wait until the light is **off** before using it.
2. After recording, whether the recorder is powered or not, you must turn the switch to OFF to save the recording file first, otherwise the recording file will be lost.

● Q&A

Unable to record suddenly

Please back up important files first and format them on the computer. If they can be used normally after formatting, please clean up the computer in time. This is a computer virus infection of the recorder, causing the recorder to be unusable. It may take a long time. It will cause damage to the machine beyond repair.

The indicator light does not respond or keeps on in an abnormal state

Please back up important files first, and then restore the factory settings. After connecting to the computer, click My Computer, find the mobile drive letter and right-click

the mouse, select Format, and then select Quick Format. In this way, the factory settings can be restored and most of the faults can be eliminated.

No response after connecting to the computer via the data cable

Please use the original data cable, and then check whether the plug is in place. If the computer still does not respond, try to connect to a different computer. Some computers cannot be recognized because of lack of drivers. If you still cannot recognize it after trying, you can contact after-sales upgrade or after-sales service.

★ ★ ★ This machine comes with an intelligent reset system, please save the recording file before connecting to the computer.

Since the recording effect and sound quality of this product are relatively clear and the parameters are relatively high, the recording file is relatively large, please extract it in time. The company is not responsible for the loss of data.
